Portage Quadrangle

Landfill X Generator Treatment, Storage, Disposal (TSD)
Transporter Other: _____

PRIORITY ASSESSMENT: HIGH MEDIUM X NO FURTHER ACTION (NONE)

CLASS: X I-STATE LEAD II-REM/FIT LEAD
State Accompanies

State Comments:

This site was placed on CERCLIS as a result of a closure proceedings notice in 1985. Ted Warner of IDEM made the final inspection and found no problems of major concern. The Transportation Products building is being used now by National Steel, the parent company, as a warehouse for office supplies. No on-site contamination was apparent upon inspections. The entire facility appeared clean and well-run. No further action is recommended.
